PROBLEM STATEMENT

Create A College Tech Fest Management App Where Students Can Participate In The Events And Get Participation Certificate Through That.

SOLUTION

An app named Neurofest, Which aims to be a one stop solution to all the college fests and events, It's not only managing the tech events but is as capable to manage any kind of the event management app. This app was designed keeping iNeuron in mind and is branded as a sub product of iNeuron itself

FEATURES

This app consists of all the mentioned features, like

- User is able to **signup/login** using the college verified E-mail
- User will be able to **see all the Events** he has registered and all the events which are happening
- User will be able to enroll into **paid Events** by paying the amount through the app (Using razorpay payment gateway)
- User will be able to **Create and join teams** to participate into team Events
- He/She is also able to join as an **Individual** as well
- A certificate will also be generated upon successful participation

Apart from all these features, The use can also

- **Post the images** of previous events He she have participated with the feature called as memory
- Can easily navigate through the app With the flused **UI and a great UX**
- Can **store the certificate** within the app or can also download in the **form of PDF**
- Can get **notifications** of the new events and Upcoming events

THANK YOU
